One of the things I have observed over my years of teaching kids at church {and at home} is that kids often don't know how to use the text features or study tools found in their Bibles to help them dig deeper into God's Word.

Teaching them the features of their Bibles AND how to use them is vital to their growth as disciples of Christ as well as helps them identify false teaching when they hear it.

Use this FREE chart to help you teach your kiddos these skills. This chart is a sample from the [Bible Text Features Pack](#) in my shop.
